How Does It Work?

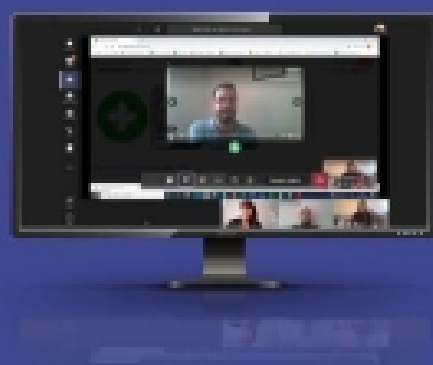

1. During class (4 x 60 mins)

Small groups of 8-10 students from around the world collaborate via video call with their teacher and classmates. They outline objectives and goals, combine intensive English language learning with academic study to prepare you and train you for university study. During the EAP you will focus on developing your academic vocabulary, classroom presentation, research and note-taking skills as well as learning how to write summaries, essays and reports and listen effectively.

Students should be prepared for a much more intensive class than a normal face-to-face session!

2. After class (30-60 mins)

Students work on homework and set assessment tasks to help them further consolidate what was learnt in class. These might include IELTS test practice, reading and note taking, listening activities, research about a particular topic of interest, and more.
