

WHAT CAN YOU EXPECT ON THIS PROGRAMME?

How does it work?

1. During class (90 minutes)

Small groups of 8-10 students from around the world collaborate via video call with their teacher on the lesson's objectives. They identify personal learning objectives and goals, discuss the questions and task(s), review any questions and set up the assigned task to be done after class.

2. After class: Assigned Task (Practice, Production and Reflection)

Students are asked to work on a writing or speaking post-class collaborative activity, which they may be required to upload on Teams and share with the class. The assigned task gives students extra practice with the language learned in the lesson. Online This task will help identify individual strengths and areas that need to be developed. Follow-up discussion and feedback with their group and teacher will help students and teacher set new learning objectives.

Note: Reflection on learning and personal goal setting create a more personalised and intensive learning experience in an online setting.
