The programmes are a mixture of topic-based English language classes and cultural and social sessions. Our topic-based classes have been developed in-house and are specifically designed for our young learner students. The teachers focus on engaging activities that encourage participation and language use. Our cultural and social programme is based on our amazing mix of global summer school locations and provides students with an opportunity to see the world and mix with others while remaining at home.

As with our existing EC Virtual programme, we use **Microsoft Teams**, which is a safe and secure platform, important in the safeguarding of our youngest of learners.

Weekly Prize Draw*

Students can **win a free week** at one of our Embassy Summer programmes worldwide in 2021! Every week, the teacher will select a student from each class as 'Student of the Week'.
