## STEP 2: BEGIN!

As soon as you purchase Fusion, you will receive a welcome email with log-in instructions and your Study Plan. This is the start date of your Fusion programme.

## STEP 3: YOUR PROFICIENCY ASSESSMENT – TIME TO SET YOUR LEVEL

Follow the instructions to take your proficiency assessment. This 45-minute assessment will test your Speaking, Listening, Grammar and Reading skills. All the content inside the platform will be matched to your current language level.

You will be asked to take the proficiency assessment four times during your course: when you start, before traveling abroad, after your experience abroad and at the end of your online access.

## STEP 4: PERSONALISE YOUR PROGRAMME

Answer questions about your goals and interests, and Fusion will select customised units for you, matched to your language level. You can change your units at any time by choosing from our many different themes at your level:

You could also choose to enrol in one of our pre-made courses:

- General English Courses: Beginner English, Pre Intermediate, Intermediate English, Advanced English, TestPreparation
- Introduction to Courses: Medicine, Dentistry, Law, Civil Engineering, Mining, Digital Marketing
- Prepare for Job Interviews

...and more always being added

Visit the Grammar Guide to explore different grammar structures and see examples of grammar in use. Practise your vocabulary using the flashcards in your Word Bank.

## **STEP 5: SCHEDULE YOUR PRIVATE SESSIONS**

Choose a teacher and a time that best suits you. If you like, you can write a note to your teacher in advance outlining what you would like to focus on in the session. After each session, you will receive personalised feedback from your teacher. You can purchase more private sessions whenever you like.

Your whole journey will be guided by the Fusion Director of Studies, and there's a live chat function so you can ask questions at any time.

### **...AND RESERVE AND JOIN YOUR PREPARATORY GROUP SESSIONS**

You will have access to group tutoring sessions each week with other students at your level. Simply reserve a session in advance, complete the recommended lesson(s) and then join!

## **STEP 6: TRAVEL ABROAD**

Start your study abroad experience and your in-person EC course. Practise what you have learnt online in a real-life setting.

## **STEP 7: RETURN HOME AND CONTINUE STUDYING**

Take another proficiency assessment to see how much you have learnt. Use your remaining private sessions to focus on any skills or specific areas where you feel you need extra attention.

Continue studying with other students and teachers in conversations sessions tailored to your level.

## **STEP 8: TRACK YOUR PROGRESS ANY TIME**

Access your Performance Dashboard at any time to track your skill performance and the time you have spent practising in different areas. From your Dashboard you can then zoom in on specific areas for more detailed metrics, and review your scores on previous assessments.

## **STEP 9: TAKE YOUR FINAL PROFICIENCY ASSESSMENT**

Test your final English language level to see how much you have improved!

## **STEP 10: PRINT YOUR CERTIFICATE**

You can print a certificate at the end of your course or at any point during your programme, which you can use to show your current English language level.
